ACM Industries is a trusted manufacturer specializing in precision plastic injection moulding and custom mould manufacturing. We provide high-quality, durable and technically accurate moulded components that support a wide range of industrial applications across India and international markets.

With a strong foundation built on engineering excellence, innovation and reliability, we deliver solutions that meet the evolving needs of modern manufacturing.

Agriculture

Our agriculture range includes precision-moulded plastic components designed for irrigation systems, water flow control and farm utility applications.

Poly Fitting

Our Poly Fitting range is engineered to deliver reliable performance in

irrigation and water distribution systems. Manufactured using premium-grade plastic and advanced injection moulding technology.

Bath Fittings

Our Bath Fittings are designed to deliver a perfect balance of durability, functionality and contemporary design. Manufactured using premium quality plastic materials.

Pipe Fittings

Our Pipe Fittings are engineered for durability, reliability, and precise performance. Suitable for plumbing, industrial, and construction applications.

Household

Our Household Products collection includes everyday essentials designed for convenience, durability, and practicality. From kitchenware and storage solutions to cleaning tools.

Blow Product

Our Blow Products are manufactured using advanced blow moulding technology to produce highquality, lightweight and durable plastic components.

Electric Accessories

Our Electric Accessories range is designed for safety, efficiency, and durability. From high-quality switches and sockets to connectors and wiring accessories, each product meets rigorous industry standards.

Flip Top Caps

Our Flip Top Caps are precisionengineered to provide secure sealing, ease of use and consistent performance. Manufactured using high-quality plastic materials and advanced moulding technology.
